## GOV'T WATCH

Saving and Protecting the Filipino Consumer

### AN APPEAL FOR ADDITIONAL WATER SUBSIDY FOR THE POOR

The affordability of water is a vital component to the well-being of a community, especially low-income areas.

Communities that cannot afford a regular supply of clean and safe water will inevitably suffer from health problems and poor sanitation.

We express our appreciation to Manila Water for providing consistent water services to the East Zone, which includes more than 1.6 million people from marginalized communities, by completing T3 projects from its flagship "Tubig Para Sa Sarangay" program.

Under this program, low-income families consuming 10 cubic meters (30 drums) or less pay a monthly bill of only P71.68. Spending only P1.42 per drum of water will allow these families more to spend on other essentials.

Given the onslaught of El Niño and the low water level in Angat Dam, Manila Water has managed to deliver potable and affordable water to some the farthest parts of the communities such as Baguio and Benguet, and to the highest and most elevated areas including San Mateo, Rodriguez, and Antipolo.

We urge Maynilad and MWSS to continue extending a similar subsidy so that the poor communities in the West Zone may also enjoy access to clean, safe, and affordable water.

We want your feedback.

# Stronger enforcement of green laws urged

By William L. Eber

The Massachusetts Department of Environmental Protection (DEP) has called for a stronger enforcement of environmental laws and regulations, especially because of the growing number of violations and the need to protect the state's natural resources and the health of its citizens.

The DEP's new enforcement strategy is an outgrowth of a comprehensive review of the state's environmental laws and regulations, which was completed in 2001.

The review found that the state's environmental laws and regulations are outdated and inconsistent, and that the DEP's enforcement efforts are fragmented and inefficient.

The DEP's new enforcement strategy is designed to address these issues by streamlining the state's environmental laws and regulations, and by improving the DEP's enforcement efforts.

The man, who was arrested in Manila on Monday, is being held in connection with the alleged assassination of a former Philippine president, according to a police official.

Protesters and supporters of the late Philippine president, Corason Aquino, gathered in Manila on Monday to demand the release of the former president's driver, who was arrested in connection with the alleged assassination of the president.

## PAL employees denounce DOLE retrenchment ruling

By Mike C. Sison

Manila (UPI)—Employees of the Philippine Airlines (PAL) have denounced a ruling by the Department of Labor (DOLE) that allows the airline to retrench 1,000 of its 15,000 employees.

The employees, who are represented by the Philippine Airlines Employees Union (PAEU), said that the ruling is a violation of the airline's collective bargaining agreement (CBA) with the union.

The employees also said that the ruling is a violation of the Philippine Labor Code, which prohibits the retrenchment of employees without just cause.

The employees are demanding that the DOLE ruling be annulled and that the airline be ordered to reinstate the 1,000 retrenched employees.

The employees also said that the ruling is a violation of the Philippine Labor Code, which prohibits the retrenchment of employees without just cause.

# Holy water is not just blessed water

There is a lot of talk about the power of water. Some people say it's the source of life. Others say it's the source of death. But what if it's the source of something else? What if it's the source of a new kind of power? One that can heal, that can cure, that can change the world? That's the power of holy water. It's not just blessed water. It's the power of God. It's the power of love. It's the power of hope. It's the power of faith. It's the power of life. It's the power of death. It's the power of everything.

# Pot shot: California votes on marijuana

California voters will decide whether to legalize marijuana for medical use. The measure, known as Proposition 215, is one of the most controversial in the state's history. It has sparked a heated debate between supporters and opponents. Supporters argue that medical marijuana can help people with chronic pain and other conditions. Opponents argue that it is a gateway drug and can lead to addiction. The vote will be held on November 2, 2010.

### Mausoleum caretaker gets in on people skills

The diagram shows a 2D hexagonal lattice of atoms, represented by solid circles. A central atom is highlighted with a larger, shaded circle. A dashed line connects this central atom to one of its nearest neighbors. The lattice is labeled with 'a' for the lattice constant and 'r' for the distance between adjacent atoms.

# Brazil elects Rousseff, its first female president

**SAO PAULO, Brazil** — Dilma Rousseff, a 44-year-old economist, was elected president of Brazil on Oct. 2, 2011, in a runoff election against incumbent President Luiz Inácio Lula da Silva. Rousseff, a member of the Workers' Party (PT), won 55.9 percent of the vote, while Lula won 44.1 percent. Rousseff's victory marked a historic moment for Brazil, as she became the first woman to hold the office of president. She was sworn in on Jan. 1, 2011.

Rousseff's campaign focused on economic growth and social development. She promised to continue Lula's policies of social inclusion and economic reform. Rousseff's victory was seen as a sign of the PT's continued popularity in Brazil. She was elected in a closely contested race, with Lula leading in the first round of voting.

Rousseff's election was a surprise to many observers, who expected Lula to win a third term. Rousseff's victory was seen as a sign of the PT's continued popularity in Brazil. She was elected in a closely contested race, with Lula leading in the first round of voting.

## Theodore T. Sorensen, JFK's counselor, dies at 82

**WASHINGTON** — Theodore T. Sorensen, the longtime White House speechwriter and counselor to President John F. Kennedy, died Oct. 3, 2011, at the age of 82. Sorensen was a key figure in the Kennedy administration, known for his close relationship with Kennedy and his role in shaping the president's public image. He was born in 1929 and served in the U.S. Navy during World War II. Sorensen's death was a significant loss to the Kennedy family and the White House.

He was born in 1929 and served in the U.S. Navy during World War II.

## Black Death that gripped Europe came from China

**PARIS** — A new study suggests that the Black Death, the devastating pandemic that swept through Europe in the 14th century, may have originated in China. The study, published in the journal *PLoS One*, found that the genetic makeup of the Black Death bacteria is most closely related to strains found in China. The study suggests that the Black Death may have been introduced to Europe via trade routes connecting China to the Mediterranean. This finding challenges the long-held theory that the Black Death originated in the Middle East.

## Govt exerts more effort to promote life insurance

By Patricia A. Davis

The government is exerting more effort to promote life insurance. It is launching various campaigns and initiatives to educate the public about the benefits of life insurance. The government is also providing incentives for individuals who purchase life insurance policies. This effort is aimed at increasing the penetration of life insurance in the country and ensuring that more people are protected against financial risks.

# Kids may have vision problems parents don't know about

By Jay Green

**L**ittle kids who can't see clearly may be having vision problems that parents don't know about, according to a new study. The study found that many children with vision problems are not being treated, which can lead to long-term problems with learning and behavior.

After age 9, the damage to the eyes is more difficult to fix.

Dr. David R. Hirschfeld, MD, PhD

The study, which was published in the journal *Optometry*, found that many children with vision problems are not being treated, which can lead to long-term problems with learning and behavior. The study also found that many children with vision problems are not being treated, which can lead to long-term problems with learning and behavior.
